

YOUSEF ELBEYALY

Machine/Deep Learning
Engineer

CONTACT

- ✉ yousef.amir080@gmail.com
- ☎ +201120084582
- 📍 Egypt, Al-Gharbia, Al-Mahallah Al-Koubra
<https://github.com/Yousef-Elbeyaly>

SKILLS

- Languages: Python (Advanced), C#, SQL.
- Frameworks: PyTorch, TensorFlow, OpenCV, MediaPipe, Scikit-learn.
- Tools: Docker, NVIDIA TensorRT, Git, Hugging Face, GCP.

EDUCATION

Bachelor's Degree in Computer Science

Universitas Mansoura
2025 – 2029 (Expected)

CERTIFICATIONS

- Deep Learning Specialization – DeepLearning.AI
- Machine Learning Specialization – Stanford University
- Advanced Data Analytics Professional – Google

LANGUAGES

- Arabic (Native)
- English (Professional Proficiency)

PROFESSIONAL SUMMARY

Results-oriented Machine Learning professional with a strong foundation in mathematical modeling and computational statistics. Proven track record in developing high-performance Computer Vision models, including detection and segmentation pipelines using PyTorch and OpenCV. Expert in translating complex visual data into strategic insights and optimized solutions for real-world applications.

WORK EXPERIENCE

Junior ML/Deep Learning Engineer

- *Freelance Machine Learning Engineer (Jan 2026 – Present)*
- Building end-to-end ML solutions and integrating Deep Learning models via APIs.
- Researching advanced architectures like Flow Matching and Diffusion Models..

Projects

- *Chest Cancer Detection: Built a high-precision X-ray classification system using PyTorch and Transfer Learning (VGG16).*
- *AI Virtual Mouse & Trainer: Engineered a real-time HCI system using OpenCV and MediaPipe for hand landmark detection and fitness monitoring.*
- *AI Mizan: Developed a food price forecasting model with a 90.8% R2 score using CatBoost and Flask.*

INTERESTS

Availability: Open for Remote or Hybrid work models.
Continuous Learning: Keen on attending AI conferences and tech workshops.
